# R-BOX Installation Guide
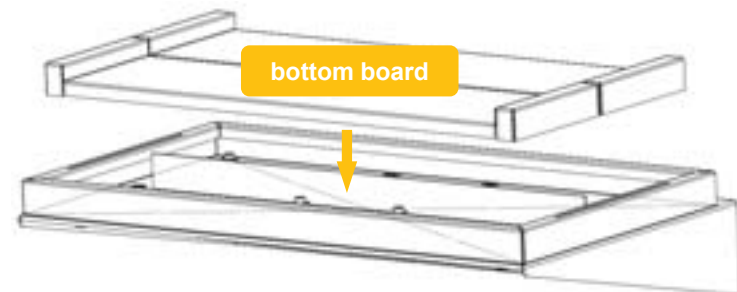

STEP 1 Assemble the base components

1 Connect the support base to the mounting plate with 8 screws.
(If placed the R-BOX on the ground, there is no need to install the support base)

mounting plate

support base

2 Fix the base components on the wall with 10 expansion bolts.
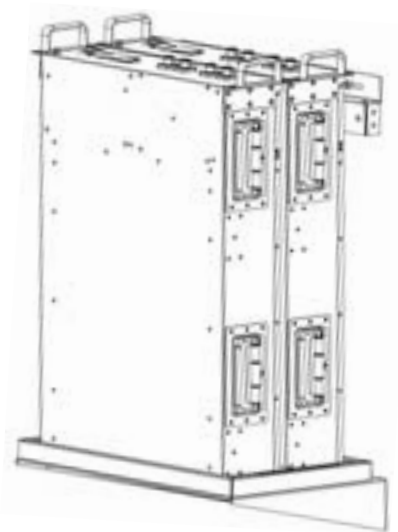

3 Insert the bottom board into the base components.

bottom board

# STEP 2 Assemble the main body

1 Fix the bracket on the wall with 5 expansion bolts.

bracket
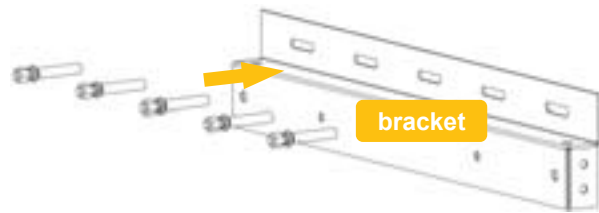

2 Put the batteries on the base components.
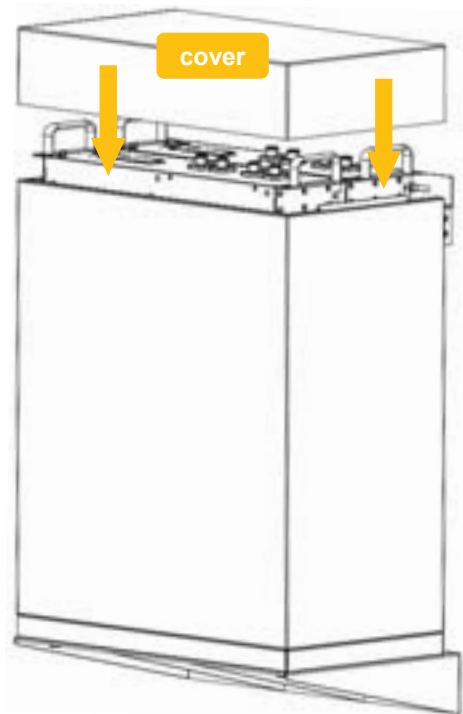

3 Insert the main body into the base components, and fix both sides with 4 screws.

main body

1   Insert the cover into the main body.

2   Finish.
